LMC

MAKE THE MOMENT YOURS

Sometimes, it doesn't take much: a warm place,
a beautiful moment, and time just for yourself.
No plan, no destination – just the here and now.
With LMC, you'll find your own rhythm and the
freedom to live every moment in the way that feels
right for you.

* The technically permissible maximum laden mass of the vehicle (e.g. 2,000 kg) is a mass specification defined by the manufacturer that the vehicle must not exceed. You can find information on the technically permissible maximum laden mass of the model you have selected in the technical data. Driving the vehicle even if it exceeds the technically permissible maximum laden mass constitutes an administrative offense that may result in a fine.
The weight specifications and tests for caravans are regulated uniformly throughout the EU in EU Implementing Regulation No. 2021/535 (until June 2022: EU Regulation No. 1230/2012). We have summarized and explained the essential terminology and legal requirements from this regulation for you below. Our dealers and the LMC configurator on our website are there to give you additional assistance in configuring your vehicle.

⁽³⁾ The dimensions given are standard values specified in the type approval procedure. Due to manufacturing tolerances, the actual dimensions may deviate from the values specified above. Deviations of up to ± 3 % of the dimensions are legally permissible and possible. The factory installation of optional equipment may influence the specified dimensions of the respective model or floor plan.
